

How to assemble

Office chair

Rather see it in 3D and hear each step?

Point your phone camera at the code. The manual opens on your phone, shows each step in 3D and reads it aloud.

1

Check the parts

Open the box on the floor, on top of the cardboard. Lay out the parts and check that nothing is missing.

2

Push in the casters

Push each caster into a hole of the base. Press hard until you hear a click.

3

Fit the gas lift

Take the plastic cap off the top of the gas lift. Then set the gas lift into the center hole of the base.

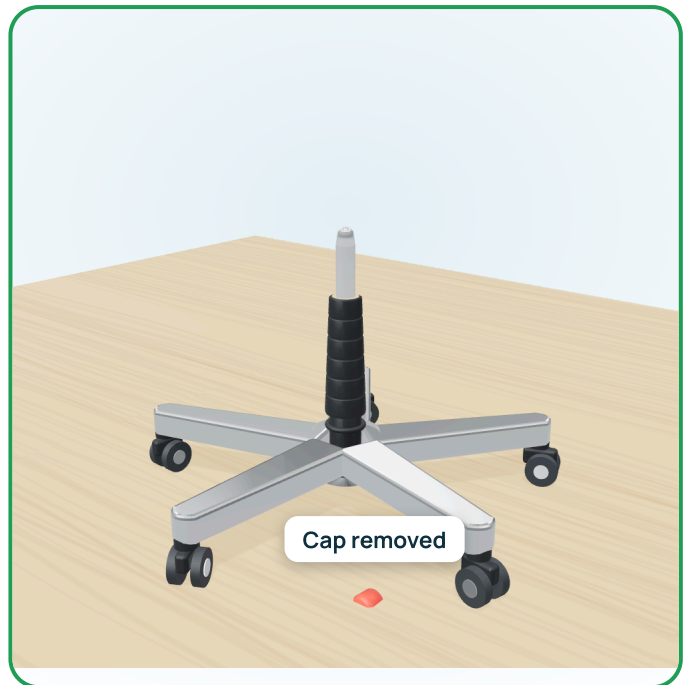

Scan to hear this step

Not like this: with the cap on, the seat does not lock onto the gas lift.

Like this

4

Screw on the mechanism

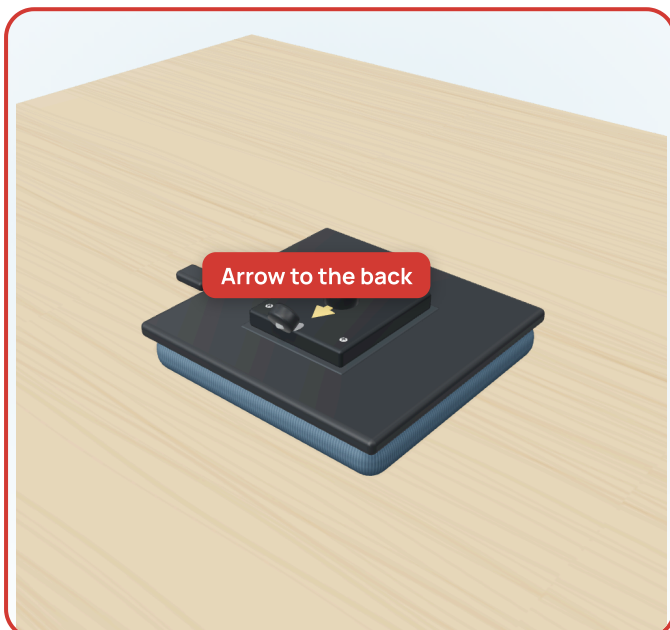

Turn the seat upside down. Place the mechanism with its arrow toward the front of the seat and tighten the 4 screws.

Scan to hear this step

Not like this: a reversed mechanism puts the lever on the wrong side and tilts the seat backward.

Like this

5

Set the seat on the gas lift

Turn the seat back up and set the hole of the mechanism onto the top of the gas lift.

Scan to hear this step

6

Screw on the backrest

Fit the backrest bar under the seat, behind the mechanism. Tighten the 2 screws with the hex key from the box.

Scan to hear this step

7

Screw on the armrests

Fit each armrest under the seat and put in the screws. Tighten them only at the end, with both armrests in place.

Scan to hear this step

8

Sit down and set the height

Sit down firmly once to lock the seat. Pull the lever to adjust it: feet flat on the floor and knees at a right angle.
