

How to assemble

Gas grill

Rather see it in 3D and hear each step?

Point your phone camera at the code. The manual opens on your phone, shows each step in 3D and reads it aloud.

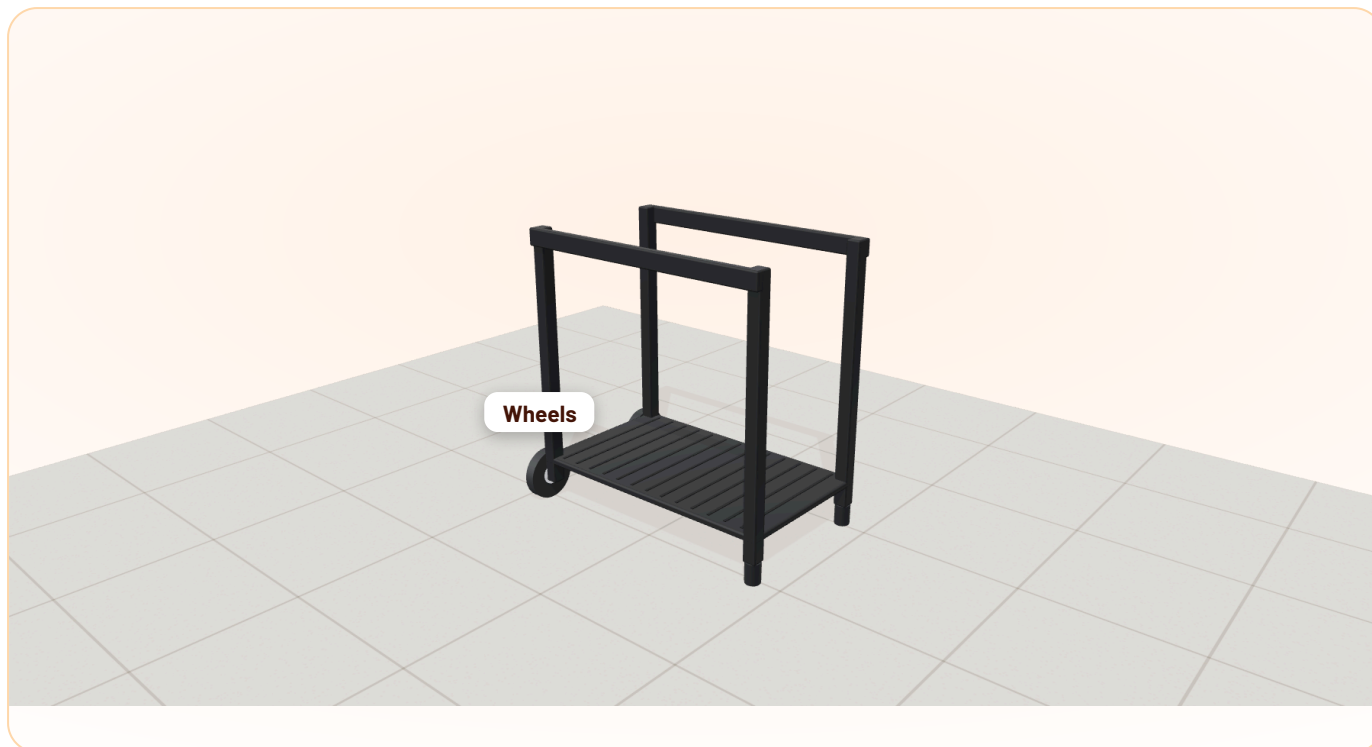

1

Build the cart

Fit the four legs onto the bottom shelf and tighten the bolts. The wheels go on the left side.

2

Set the firebox on the cart

With a second person, lift the firebox onto the cart. Fix it with the 4 bolts.

3

Attach the side shelves

Fit one shelf on each side of the firebox and tighten the screws.

Scan to hear this step

4

Put in the flame tamers and grates

Open the lid. Lay the flame tamers over the burners and the cooking grates on top.

5

Connect the regulator to the tank

Set the tank on the bottom shelf. Screw the regulator onto the valve by hand only, all the way. Do not use tools.

Scan to hear this step

6

Leak test

With every knob off, open the tank valve. Brush soapy water on the connections: bubbles mean a leak.

Scan to hear this step

✗ **Not like this: bubbles mean a leak. Close the gas and tighten again; if they keep coming, replace the part.**

✓ **Like this**

7

Light it with the lid open

Open the lid. Turn one knob to high and press the igniter. Never light the grill with the lid closed.

Scan to hear this step

Not like this: with the lid closed, gas builds up and can burst into flame.

8

Shut it off when done

When you finish, turn every knob off and close the tank valve.
